

Counterfeit, Fraudulent and Suspect Items (CFSI) Policy Statement

01.12.2019

Manning Construction Ltd recognise the potential risks concerning the supply of Counterfeit, Fraudulent and Suspect Items (CFSI) within the supply chain, and to this end we only use suppliers that can demonstrate the quality and source of the goods that we require.

Counterfeit/fraudulent material is material whose origin, age, composition, configuration, certification status or other characteristic (including whether or not the material has been used previously) has been falsely represented in any of the following ways:

- Misleading marking of the material, labelling or packaging.
- Misleading documentation.
- Any other means, including failing to disclose information.

Manning Construction Ltd is committed to preventing such items from getting into Manning Construction Ltd facilities and processes.

All Manning Construction Ltd employees which are involved in the purchasing of goods have been informed of the potential for CFSI and advised that all goods must be purchased directly from the manufacturers or from agreed and official distribution channels.

If any CFSI items are discovered within the Manning Construction Ltd supply chain, we will notify our customers immediately so that they may cease the use of this item and inform any other parties which may be using them.

These items should then be quarantined and destroyed, and not returned to the supplier to prevent them from re-entering the supply chain.

Our policy is available to all persons working on behalf of Manning Construction Ltd, shall be reviewed annually in line with the issue date, and will be made available to interested parties upon request. This Policy Statement is also available on the Manning Construction Ltd website.

A handwritten signature in black ink, appearing to read "S Euston", is positioned above a dotted line.

Mr. Stephen Euston
Managing Director
