

Quality Policy Statement

15.02.2018

Manning Construction Ltd has a vision to be synonymous with professionalism and innovation, together with faultless and safe project delivery in every operational area. We are fully committed to the principles of quality assurance and recognise the necessity for the involvement, and co-operation of all our employees in achieving quality in our service.

We have introduced, and maintain a quality management system (QMS) using ISO 9001:2015 as the framework within which to implement, evaluate and improve the quality of our service.

The scope of our QMS is documented as "Construction: Design and build, including: civil engineering, building contracting, construction design management (CDM)."

To meet our quality goals we have set the following six high-level objectives:

1. Top Management shall take accountability for the effectiveness of the QMS.
2. Promote the use of a process approach and risk-based thinking.
3. Ensure that the resources needed for the QMS are available; including training, support and encouragement.
4. Communicate the importance of effective quality management and of conforming to the QMS requirements.
5. Ensuring the QMS achieves its intended results.
6. We will demonstrate continual improvement by the setting and monitoring of realistic quality objectives and targets at suitable organisational levels, that are compatible with the context and strategic direction of the Company, and to enhance customer satisfaction.

Our policy is available to all persons working on behalf of Manning Construction Ltd, shall be reviewed annually in line with the issue date, and will be made available to interested parties upon request. This Quality Policy Statement is also available on the Manning Construction Ltd website.
